NEW:
Disc Golf at the Cobden Park!
Located at the northern end of town near the intersection of Locust Street and Oak Street. Alternate tees offer a nice variety for each hole.
Both are located just off Karbers Ridge blacktop 30 minutes from Harrisburg. Garden of the Gods consists of spectacular overlooks and views of unusual rock formations. Camel Rock is featured on the Illinois quarter of the America the Beautiful Quarter series. Garden of the Gods has been listed in “USA Today” as one of “Ten Great Places to Get Nature on Film.” There are two main trail systems. The “Observation Trail” is a .25 mile stone path featuring some of the most well known formations. The view of the 3300 acres of beautiful old growth forest from this trail is breathtaking. Sunsets are especially beautiful. This interpretive trail features interesting history about the geology of this area. The Wilderness area is over 320 million years old. The sediment rock in this area is over 4 miles deep and the fractured bedrock has created some interesting rock formations that represent various objects.

While not as well known as Garden of the Gods, Rim Rock/Pounds Hollow Recreational area is just as awe inspiring in its own way and consists of a wonderfully scenic trail of exceptional beauty and historic values. To early settlers this unique formation was known as “the Pounds” an old English term meaning “enclosure.” The trail leads past remnants of a stone wall built by prehistoric Native Americans, an observation platform and steps descending through huge rock formations, narrow rock passageways via stone steps to the floor below. Ox Lot Cave, at the bottom, is a massive rock overhang where 19th century loggers kept their oxen and horses. At the back of the overhang is a natural spring which never goes dry. Continue hiking to the beautiful 28 acre forest lake known as Pounds Hollow Lake, or through massive sandstone canyons back to the top of the escarpment. This area is known for its spectacular show of spring woodland flowers along both its upper and lower trails. The upper trail is paved and less strenuous for hikers. The lower trail has a dirt surface and leads along the base of the bluffs before looping back to the parking lot.

The Ohio River National Scenic Byway, a 967-mile tri-state byway, is the only one in the nation to link together three national forests – Wayne in Ohio, Hoosier in Indiana, and Shawnee in Illinois. Illinois is home to 188 miles of this magnificent byway and the route is well marked with the ‘Ohio River Scenic Byway’ signage. Ad on page 8.

River to River Trail
Spanning from the Ohio River to the Mississippi River, this 160-mile trail passes through some of the most scenic areas of southern Illinois, including upland forests, wetlands, grasslands and bluffs. Most of the trail is on public lands (national forest or state parks), however some segments are along roads and across private land (where allowed). The trail is marked by a blue letter “i”. A new River to River Trail guide is available online at https://www.rivertorivertrail.net/

The Trail of Tears
As part of The Indian Removal Act of 1830, eleven Cherokee detachments left their homelands during the fall of 1838 and set out toward Oklahoma territory along what is now referred to as the Northern Route of the Trail of Tears. The Auto Tour Route along historic Illinois Route 146 follows the approximate route of the original Trail of Tears for about sixty miles across southern Illinois. Look for official signage that marks segments of the trail in Pope, Johnson and Union counties.

Prior to, and during your adventure into the Shawnee National Forest, it’s always a great idea to:

1.) Let someone know where you are and what route(s) you plan to take.
2.) Check the local weather forecast.
3.) Review emergency phone numbers for the area(s) you plan to travel.
4.) Carry a GPS unit, compass and map.
5.) Carry basic first aid essentials.
6.) Carry rain gear and extra clothing.
7.) Check your cell phone service often. (Please Note: A good majority of the Shawnee National Forest has little or no cell phone service.)
8.) Depending on your recreational activity, ALWAYS BE PREPARED!

Whether you’re looking for one-of-a-kind art, wine, or antiques, or exploring the great outdoors, the Shawnee Hills can take you there. The Shawnee National Forest is waiting for your adventures. For fun on the water you can make a splash at Kinkaid Lake, go fishing at Lake Murphysboro or bait your hook at the serene Cedar Lake. Golf and orchards also offer a fantastic opportunity to get outdoors and have some fun. As you travel the rolling Southern Illinois countryside you can sip your way along and discover truly surprising and authentic wine culture in the Shawnee Hills American Viticultural area, Illinois’ first region acknowledged for its distinctive winemaking properties.

With two great rivers at its doorstep, historic Cairo houses many landmarks that hint at its once important Civil War role and its flirt with greatness in river and rail commerce. Founded as a commercial center joining river and rail traffic, Cairo expanded to meet the enormous demands of the Civil War. This strategic location became headquarters, supply depot, and hospital for the Western front. You can learn more about the area’s history at the Custom House Museum, the Safford Memorial Library and Magnolia Manor. Today Cairo remains a place where history lovers can revisit the romance and charm of a 19th century river town. The National Register of Historic Places lists it as ‘one of the most fascinating cities in the State of Illinois.’

High on a hill above the Mississippi River in Thebes sits the 1848 Court House. Standing for more than 160 years, this landmark on the National Register of Historic Places is a testament to architect H. A. Barkhausen and extensive preservation efforts.

Visit Tamms and you will find the 1899 Depot. This building has unique style and served both the M&O and C&EI Railroads at one time.

Take a scenic drive through the countryside to see nine barn quilts mounted on historic and present day farm buildings. And, during your visit to Alexander County, be sure to sample one of our ever-so-popular barbecues.

For the outdoors enthusiast, Alexander County offers acres of farming and prime hunting, especially the Horseshoe Lake Area known as the ‘Goose Capital of Illinois.’ Horseshoe Lake is a paradise for bow and arrow hunters, fishermen, photographers, bicyclers and picnickers.
History: Jackson County is the home of Civil War General John A. Logan who established the national Memorial Day holiday in 1868. (Oral tradition holds Logan was the keynote speaker at an early memorial observation in Carbondale’s Woodlawn Cemetery.) The General John A. Logan Museum is located in Murphysboro his birthplace. The museum tells Logan’s story from his proslavery roots through the Civil War and his eventual evolution to become an advocate of civil rights for America’s formerly enslaved citizens.

Culture: We know how to throw a party in Jackson County! Every year we have a St. Patrick’s Day Celebration, Apple Festival, Praise the Lard Barbeque Cook-Off, Big Muddy Monster Brew Fest, Makanda Vulture Fest, Riverside Art, Wine, and Blues Festival, and more. Murphysboro features great venues, including the Riverside Park Band Shell and the restored Liberty Theater. Carbondale is home to Southern Illinois University, with a modern arena and football complex, and the elegant Shryock Auditorium and McLeod Theater. In addition, there are several local businesses that offer a wide variety of weekly entertainment.

The Great Outdoors: Jackson County has all the hunting, boating, fishing, hiking, bird-watching and camping you need. The Shawnee National Forest is waiting for your adventure. Cross the Pomona Natural Bridge, see the bluffs of Giant City, or walk the trails of Little Grand Canyon. For fun on the water make a splash at Kinkaid Lake, go fishing at Lake Murphysboro or canoe serene Cedar Lake. Golf courses and orchards also offer fantastic opportunities to get outdoors and have some fun.

Other Things to Do: A monthly Cruise Night in Murphysboro, the historic Makanda Boardwalk, Unique Shops of Murphysboro, the Riverside Park Dog Park, the Shawnee Hills Wine Trail, several independent breweries, world famous cuisine, and much, much more.

UNION COUNTY

Whether looking for one-of-a-kind art, antiques, exceptional wine, or you’re interested in exploring the great outdoors, the Shawnee Hills of Union County can take you there.

As you explore the wonders of the Shawnee Hills you will find Bald Knob Cross which stands high on the most prominent elevation in Southern Illinois. Surrounded by the scenic beauty of the Shawnee National Forest, Bald Knob rises more than 1,000 feet above sea level.

As you travel the rolling Southern Illinois countryside you can sip your way along and discover truly surprising and authentic wine culture in the Shawnee Hills American Viticultural area, Illinois’ first region acknowledged for its distinctive winemaking properties.

Nestled in Shawnee Hills, Union County has many bluffs and wilderness areas scattered among the sprawling Shawnee National Forest and Giant City State Park that are ideal for camping, hiking, horseback riding, hunting, and numerous other outdoor activities. Shawnee Bluffs Canopy Tour consists of eight zip lines, eleven platforms high in the trees, three aerial suspension bridges, the longest spanning 180 feet, and two short ground\.hikes. Inns, cabins, cottages and bed & breakfasts dot the region and are great launching pads for wine tasting and hiking or biking enthusiasts, many offering a secluded getaway.

Built in 1854, the Illinois Central Railroad was instrumental in converting the river to rail traffic. The railroads were used for shipping apples, peaches, strawberries, peppers, and melons to Chicago and New Orleans in refrigerated cars, first developed in Cobden. Flamm Orchards and Rendleman Orchards Farm Market are two popular stops for area produce and serve up yummy fresh desserts with apples, peaches or strawberries.

The Annabelle Hydrangea was discovered in Anna, Illinois. The native shrub Hydrangea Arborescens ‘Annabelle’ grows wild in partly shady and moist soils in southern Illinois. It grows four feet tall with large white flowers and dark green foliage, and blooms from early to late summer.

Jonesboro was the site of the third Lincoln-Douglas debate in 1858 and is a Looking for Lincoln Heritage site.

The Bald Knob Cross of Peace

For more than half a century, the Bald Knob Cross of Peace has towered over the hills of Union County as a symbol of unity, peace and devotion. First conceived of in the 1930s by Jackson County native Wayman Presley and the Rev. W.H. Lirely, the cross was the result of more than 20 years of planning and fundraising. Finished in 1963 as the largest cross in the western hemisphere, the lit monument, which sits more than 1,000 feet above sea level, became home to an annual Easter sunrise service that draws hundreds each year.

“I can’t think of another project that’s sought to unite people of so many backgrounds,” says D.W. Presley, grandson of Wayman Presley and president of the current Bald Knob Cross of Peace board. “People like to stay and reflect, and this gives them a place to do that.”

The cross continues to be a draw year-round, and substantial improvements have been underway over the past years, including a complete replacement of the cross’ panels — something made necessary by more than 40 years of rust. Also, Presley says the site now makes full use of LED lighting, and plans are underway to install a park-like setting around the base of the cross to allow for reflection, gatherings, and other activities at what is perhaps Southern Illinois’ most prominent man-made monument.

The cross is located at 3630 Bald Knob Road in Alto Pass. For more information, call 618-893-2344.

Part of the Shawnee National Forest, LaRue-Pine Hills boasts more than 2,500 acres of swamps, limestone bluffs, springs, ponds, and upland and lowland forests. Many hiking trails to experience.
Winter is a great time to enjoy the slower, quieter side of Shawnee Forest Country. The cooler temperatures mean no bugs and the trees are bare, allowing you to see much further into the forests. Bluffs hidden behind the summer foliage, emerge dramatically into sight.

Hiking is available year-round, and if you have visited in another season winter can offer a very different experience. The weather is generally mild, and you can pretty much have the trails all to yourself. Enjoy a peacefulness that only winter can provide.

After a day of hiking, bicycling, horseback riding or zip-lining relax in front of a fire, or roast hot dogs and marshmallows. Some cabins and cottages also offer hot tubs, as well as booking incentives for December through Februrary.

During January and February the Shawnee Hills Wine Trail has provided you with great incentives to visit with their passport program. Enjoy savoring their wines and saving big with great discounts on wine, merchandise, food and more. Passports are available for sale at www.shawneewinetrail.com

There are eleven wineries on the Shawnee Hills Wine Trail and they are all open year round. Fewer people mean a casual pace and more intimate tasting experience. (see pg. 18)

With its breathtaking natural beauty and great opportunities for outdoor recreation, the central region has an old railway converted bike path, The Tunnel Hill State Trail, a 48-mile trail winding through farmland, thick woods, lush wetlands and a tunnel for which it was named. The Cache River Wetlands contains 60,000 acres of beautiful forests and wetlands. Canoe the Cache and you might see otters, bobcats, whitetail deer, bald eagles, herons, egrets, Sandhill Cranes and even the occasional Anhinga (the snake bird). Nearby in the town of Metropolis, the official Home of Superman proudly honors their favorite son with a 15-foot bronze statue of the Man of Steel right in the middle of Superman Square.

Some Suggested Itineraries

Be aware that several of the stops on the Cache River Auto Tour involve easy-to-moderate hiking. Doing full justice to all 11 stops can easily fill one or more long weekends. For those with limited time, here are a few suggested “mini-tours.”

If you only have an hour or two:

Watch the twelve-minute introductory film about the Cache at the Wetlands Center, stroll the boardwalk at Section 8 Woods (#1) and take a short hike to view the giant Winnie-the-Pooh tree at Big Cypress Tree Access (#2).

If you have a morning or afternoon:

Make short stops at #1 and #2, then hike the Heron Pond Trail (#4).

For a full day of activity:

In the morning, stop briefly at #1 and #2, and then hike the Heron Pond Trail (#4).

After lunch, hike the Tupelo Trail (#3), or take a canoe or kayak tour at Lower Cache Access/Buttonland Swamp (#9). Finish the day with a late afternoon or early evening drive around Mermet Lake (#10).

If you don’t want to stray far from your car:

Sites that can be enjoyed without leaving your car include Mermet Lake (#10) and Horseshoe Lake (#11). The boardwalk at Section 8 Woods (#1) is wheelchair accessible and highly recommended for those who can only walk short distances, but would like to see a close-up view of a cypress-tupelo swamp. Lower Cache River Access (#9) also provides easy access to a quality view of Buttonland Swamp.

Be sure to pick up a copy of the complete Cache River Auto Tour map and brochure, which also includes 16 historical points of interest, at the Wetlands Center or Cypress Creek Office.

Hidden away in southern Illinois is one of Nature’s masterpieces. Featuring ancient cypress-tupelo swamps, bottomland hardwood forests, sandstone bluffs and limestone caves, the Cache River Wetlands is a rich and diverse area that provides habitat for many unique and fascinating plants and animals. It is a place to enjoy hiking, birding, kayaking and canoeing, hunting, fishing, photography and learning about the natural world.

One could spend a lifetime exploring this gem – but, if you only have a weekend, or even a few hours, the Cache Auto Tour, created by Friends of the Cache River Wetlands, is designed to showcase the area’s highlights and whet your appetite for a return visit!

1 SECTION 8 WOODS

Perfect for a quick introduction to the swamp, this charismatic boardwalk located right next to Highway 37 will instantly transport you into a primeval, flooded forest of water tupelo (including the Illinois State Champion) and bald cypress.

2 BIG CYPRESS ACCESS

The shortest hike in the Cache leads to a monumental reward – thousand-year-old bald cypress trees, the largest of which is forty-three feet around! Rubber boots are recommended during wet periods, when the end of the short trail may be submerged.

3 TUPELO TRAIL

Start at the Marshall Ridge Access parking lot to explore this two-mile roundtrip trail through a mature, oak-hickory forest. The real gem, though, lies in the loop that leads to Little Black Slough, which features rock outcrops and a flooded forest of water tupelo and bald cypress. In fall, a carpet of swamp marigold forms one of the best wildflower displays in the Midwest.

4 HERON POND

Heron Pond is likely the signature destination for most visitors to the Cache. The one-to-two mile hike will take you along the river, through the woods, and, via a boardwalk, into the heart of one of the most beautiful and accessible swamps in the Midwest.

5 WILDCAT BLUFF

Embedded deep in the wilds of Johnson County, Wildcat Bluff lords over the Cache River watershed at the junction of the Shawnee Hills and the Coastal Plain of Illinois. Enjoy spectacular views from the upper trail, or follow the short but rugged trail along the base of the sandstone bluff, which leads to imposing rock overhangs.

6 HICKORY BOTTOMS

Located off Mount Olive Road, this secluded site is a mature, lowlands forest featuring 200 acres of oak and hickory. Hickory Bottoms has received national recognition for its populations of songbirds. A 1.5-mile trail provides many opportunities for wildlife viewing, so be sure to bring your binoculars.

7 BELLROSE WATERFOWL RESERVE

An accessible wildlife overlook is found along Cache Chapel Road. At first glance, you might not see much. But, time your journey to coincide with spring and fall migration, when thousands of waterfowl and shorebirds can be viewed in the late afternoon or early morning, and you will begin to appreciate what the term “wildlife refuge” really means.

8 LIMEKILN SPRINGS

The parking area just south of the Bellrose Overlook is the entry point for this unique area, where wooden boardwalks provide access to Limekiln Slough and Limekiln Springs. The site supports a diversity of wildlife, and is a great place to see wildflowers in the spring and early summer.

9 LOWER CACHE ACCESS / BUTTONLAND SWAMP

The road dead-ends into a parking area that provides easy access to Buttonland Swamp, a National Natural Landmark, where swamps form a contiguous corridor over nine miles long. A short walk leads to spectacular views of the swamp from an overlook, while a marked canoe trail offers an intimate encounter with ancient trees, including the State Champion Bald Cypress, and abundant aquatic wildlife.

10 MERMET LAKE STATE FISH AND WILDLIFE AREA

Mermet Lake is one of Illinois’ finest wildlife viewing areas, and you never have to leave your car! The five-mile loop drive passes large lotus beds and isolated cypress trees that serve as roosts for comorants, eagles and egrets. Wood ducks, river otters, wild turkeys and more provide a wealth of opportunities for photographers. [Note: Mermet Lake loop drive is closed during the winter hunting season.]

11 HORSESHOE LAKE STATE FISH AND WILDLIFE AREA

Located less than 20 miles southwest of the Cache River State Natural Area lies a large oxbow lake that supports an incredible community of bald cypress. Any season is good to visit this waterfowl haven, where everything from tundra swans to hooded mergansers may show up for the patient observer.
Where To Start Your Visit

The Henry N. Barkhausen Cache River Wetlands Center (pictured left) offers a variety of interpretive exhibits and information about the natural and cultural history of the Cache River Wetlands, as well as walking trails featuring both wetland and prairie communities. The center is located on Route 37, south of Cypress. Hours of operation: Wednesday through Sunday, 9am to 4pm.

Another good starting point is Cypress Creek National Wildlife Refuge Headquarters, which offers maps of the area and information about wildlife resources and recreational opportunities. The Refuge Office is located at 137 Rustic Campus Drive, Ullin, on the campus of Shawnee Community College. Hours of operation: Monday through Friday, 7:30am to 4pm.
Outdoor Opportunities for the Disabled

The Illinois Department of Natural Resources is committed to providing greater access and more programs for persons with disabilities. The IDNR’s goal is to make it easier for disabled persons to hunt, fish, and pursue outdoor activities. In 1999, the IDNR addressed these issues establishing a new program entitled, “Disabled Outdoor Opportunities.” Disabled hunters can participate in deer, pheasant, waterfowl, and dove hunting at various sites throughout Illinois. A number of fishing events are held each year as well.

The Tunnel Hill State Trail

Tunnel Hill State Trail is a day-use trail, offering drinking water, privy toilets and parking at the access areas. Motorized vehicles, horses and hunting are not allowed on the trail.

The site office for Tunnel Hill State Trail is located on State Highway 146 on the east side of Vienna. Bike rental at Sanburn junction 618-771-2825.

About the Trail...

At one time, the rumble of freight cars reverberated through the narrow tunnel. Wooden trestles, with their system of slanted supports and horizontal cross pieces, spanned numerous bluffs and creeks. Passengers in Pullman cars clocked the miles with these and other landmarks as they traveled one of southern Illinois’ most scenic routes.

Today, the railroad is gone. The route, known as Tunnel Hill State Trail, remains.

Tunnel Hill State Trail stretches for 55 miles from Eldorado to Karnak, with 2.5 miles being managed by the city of Harrisburg.

The 9.3-mile section between Tunnel Hill and Vienna crosses trails already known to outdoor recreationists: the River-to-River Trail, which extends from the Mississippi to the Ohio River; the unmarked American Discovery Trail, which in southern Illinois follows back roads and some of the River-to-River Trail; the U.S. 76 Bicycle Route, a part of the TransAmerica Bike Route; and the Trail of Tears, the primary route the Cherokee Indian tribe took in the winter of 1838-39 during their forced move from the Great Smokies to Oklahoma.

Twenty-three picturesque trestles along the completed sections of Tunnel Hill State Trail feature decking and side rails, which entice trail users to stop. The trestles range in length from 34 to 450 feet. The longest is Breeden Trestle, which is also the highest at 90 feet. It is located 2 1/2 miles south of Tunnel Hill.

The trail corridor, which varies from 40 to 200 feet in width, connects numerous communities: Karnak in Pulaski County; Belknap, Vienna, Tunnel Hill and New Burnside in Johnson County; Stonefort in Williamson and Saline counties; and Carrier Mills and Harrisburg in Saline County. Each has parking areas from which hikers, runners and cyclists can access the trail.
ADVENTURE BEGINS

Metropolis is where your Adventure Begins!

www.metropolistourism.com
Massac County, with the Ohio River at its doorstep, is rich in history. Fort Massac State Park is the first state park in the state. The fort was used in 1757 during the French and Indian War and served as a Customs Office from 1799 to 1807. It was dismantled in 1814 and reconstructed in 1971-73 as a museum containing the fort’s history, and renovated again in 2002.

Metropolis is the official Home of Superman and proudly honors its favorite son with a 15-foot bronze statue of America’s super hero right in the middle of Superman Square. A statue of actress Noel Neil, posed as Lois Lane, stands just two blocks up the street from Superman Square. The Super Museum located in the heart of Metropolis on Superman Square is home to the world’s largest privately owned Superman collection. There you will find original costumes, movie props, toys, original artwork, posters, stills, games, statues, action figures and so much more on display. This is a must for the Superman enthusiast!

Massac County has many outdoor activities offering something for everyone. Great fishing can be found throughout the area, and award-winning scuba diving and diving instruction are available. Mermet Lake and a chain of lakes in the Unionville Bottoms are popular spots for fishing. Scenic rolling hills provide the perfect setting for those who enjoy hiking, camping, or horseback riding. Ducks, geese, turkey, quail, and deer are plentiful in the area for those who enjoy hunting.

For those seeking oddities, Metropolis is the burial place of the Bird Man of Alcatraz and John Marvin Steele, the paratrooper who landed on the church tower in Sainte-Mère-Eglise, France on D-Day.

Metropolis is known for its gaming entertainment and spectacular events that draw visitors from near and far. Harrah’s Metropolis Casino offers gaming entertainment. The annual Superman Celebration, and the ASA Illinois Championship Archery tournament, both in June, and the Fort Massac Encampment in October are three of the biggest events in the entire region.

Limekiln Slough Trail/ Springs
(The Nature Conservancy)
I-57, Exit 18; Cache Chapel Rd; 618-634-2524
Trail features the largest of the Limekiln Springs. See clear cold water flowing a short distance through cypress tree knees into the swamp (unless flooded). One of the several springs that maintain water in the swamp during drought periods and that provide special habitat for uncommon aquatic species.

Lower Cache River Canoe Trail
(Cache River State Natural Area)
Access is between Route 37 & Perks. The 3.6 mile canoe trail is marked with international signs and takes the visitor to the Illinois champion bald cypress tree. The Lower Cache River swamp trail leads through the swamp paralleling Cypress Creek. It is an excellent trail for wildlife observation, especially at dusk when the swamp comes alive with nocturnal noises.

8364 Shawnee College Rd. Ullin, IL 62992
Nestled between the Shawnee National Forest on the west, and the Ohio River on the east, Pulaski County is rich in river heritage and natural beauty. Highlights of the history include French and U.S. fortifications in the 1700's and a major role played in the American Civil War in the 1800's. The past links the present with the preservation of one of the most diverse bioreserves in the nation, the Lower Cache River.

The Lower Cache Basin is home to the Cypress Creek National Wildlife Refuge and the Cache River State Natural Area. This area includes the Frank Bellrose Waterfowl Reserve, the Lower Cache Access Area and Limekiln Springs Nature Trail. The Nature Conservancy and Ducks Unlimited are joined in the Cache River project.

Thousands of migrating waterfowl have made Pulaski County their winter home making the Cache basin a hunter's paradise. The Cache River Wetlands Project contains 60,000 acres of beautiful forests and wetlands. This area is a national resource creating prime opportunities for outdoor recreation and enjoyment. Visitors enjoy canoeing down the Cache River among the bald cypress and tupelo gum trees. Hunting, fishing, hiking, and wildlife viewing are also very popular throughout the Cache River area.

Left: The Cache Wetlands offers great opportunities for winter eagle watching, as well as spotting other birds. The Cache River Wetland Center provides resource and identification materials to help you spot eagles and other birds in the area and along the rivers. (page 37)

Drawn by the mighty Ohio River and the lush green forests along her shore, early Europeans settled in these Illinois Ozarks during the late 1700s. Today the quiet hills and river towns beckon visitors for a different kind of vacation. Little changed from the early years, this corner of southeastern Illinois offers a pleasant diversion for travelers seeking the road less traveled. This is a land of natural beauty unequaled anywhere in the state. Surrounded by the Shawnee National Forest, scenic roads guide you along the Ohio River and through rolling hills with mysterious hollows, rocky bluffs, curious rock formations and hardwood forests.

SHAWNEE NATIONAL FOREST

Eastern Loop Tour

Take a driving/walking/sampling tour of the Eastern side of the Shawnee National Forest.

TECUMSEH was the chief of the Shawnee, who traded in salt and hunted these forests. He had wonderful values, and since the forest is named for his people, we think a visit to his statue at Glen O. Jones Lake is a good first stop. (pg. 57)

Above are GPS coordinates, but the following directions can be helpful. Take Route 45, towards Harrisburg. Turn right and proceed to the outskirts of Harrisburg. Turn right at the junction of 34 and 145, and watch for signs to Glen O. Jones Lake. Don’t miss the lake, because the sign there says Saline County Conservation Area or Water District. Turn in right and follow smaller signs to see Tecumseh, and enjoy the beauty of this under-appreciated lake and park.

CAVE-IN-ROCK – Return to Karber’s Ridge Road (turn left) and proceed to Route 1 (turn right) to the town of Cave-In-Rock. Once there, follow signs to the park that features the cave. You can park high on a bluff overlooking the Ohio River and walk down to the cave, which is a good stone stair workout. If you want a lower impact way into the cave, park at the first parking area before the park, and take the Riverwalk. This is a mostly flat walk around the rocks and on the scenic river for any fitness level.

FREE FERRY – Enjoy a free car ferry ride across the Ohio River from Cave-In-Rock over to Marion, Kentucky and back. The Ferry operates 7 days a week from 6AM to 9:30PM.

GARDEN OF THE GODS is over 320 million years old and covers more than 3,300 acres. You can follow signs from Glen O. Jones Lake to the Garden of the Gods by taking a right turn as you leave the park where you visited Tecumseh. If you go there first, continue on Route 34 to Karber’s Ridge Road (turn left), and continue to next up to the park entrance which will also be a left turn. Pass camping, horse areas, and go all the way to the parking area for the walking path. Look for interpretive signs. This GPS reading is not exact, but is for a nearby campground

WINE – Take a left out of The Chocolate Factory parking lot to Route 145. There is an access road to the left, but at the stop sign you will turn right. Continue on 145 to the town of Glendale, and look for the blue signs to Hogg Hollow Winery. Call first: 618-695-WINE. At the far end of Glendale (and it is a very small town), take the last right turn, then again to the right, and look on the left for the vineyard and the Hogg Hollow sign. If you like sweet wines, try Hog Wild or the new strawberry wine. If you prefer dry, try Vintner’s Choice, and there is everything in between. Tastings are free, and you will enjoy the owners, Steven and Debbie Hogg, who will serve cheese and other snacks with the wine.

Elizabethtown (locals call it “E-Town”). At the foot of the hill and on the Ohio River is a great catfish restaurant called the E-Town River Restaurant 618-287-2333. This place is sometimes called the “catfish barge,” and you will walk a gangplank to enter. The portions are huge, so if you are not big eaters, share one order. You may want to go for the all-you-can-eat catfish dinner. Unfortunately, this great eatery is not open in winter (closes at Thanksgiving).

TRIGG TOWER – Take a right back on 145, but turn to the left at 147 toward Robbs. Just after you see the sign for Robbs, turn right on a gravel road (this is Rushing Road but may not be marked). Continue until the road ends, and turn right (Trigg Tower Road). Just after the turn, Trigg Tower is will be on your right. If it is still light, you can climb the steep tower. It is the last fire observation tower in the country that can still be climbed, so it is a bit of a right of passage. Many local couples have stolen a kiss on top of Trigg Tower if you dare to follow in their footsteps!

GOLCONDA – Take 146 West to Golconda, and drive by the courthouse. The town’s flat roofs and wide boulevard reminds some visitors of a “Wild West” town where an outlaw would call the sheriff out for a shoot-out. Drive up on the levee for a great view of the Ohio River, looking across to Kentucky.

CATFISH – From Cave-In-Rock take 146 to Elizabethtown (locals call it “E-Town”). At the foot of the hill and on the Ohio River is a great catfish restaurant called the E-Town River Restaurant 618-287-2333. This place is sometimes called the “catfish barge,” and you will walk a gangplank to enter. The portions are huge, so if you are not big eaters, share one order. You may want to go for the all-you-can-eat catfish dinner. Unfortunately, this great eatery is not open in winter (closes at Thanksgiving).

Chocolate – No trip to this side of the forest is complete without a visit to The Chocolate Factory 618-949-3829, but you will have to get there before closing time (Monday through Saturday 5 PM). Enjoy free samples, hand-dipped ice cream, and hand-made chocolates of every kind. Take 146 West to Dixon Springs. Don’t eat too much chocolate all at once, but definitely buy some to take home and to bring back for your good friends! (see ad pg. 48)

OLD SHAWNEETOWN

5-Column Bank at Old Shawneetown
Home of the first state chartered bank in Illinois. The bank was opened in 1840. Salt production from the Salines and land sales were the driving forces behind the accumulation of wealth in the then thriving river town. The 1937 Ohio River Flood caused the majority of the town’s residents to move to New Shawneetown. Stains from that flood can still be seen just below the base of the top story windows. The Illinois Historic Preservation Agency has been restoring the building since the 1970’s.

The Marshall House
618-269-3716
The first bank in Illinois Territory is located along the levee in Old Shawneetown. Merchant John Marshall recognized the need for a safe haven for the money carried by the salt traders from the Salines. Salt, the first industry in Illinois, was an extremely lucrative one. In 1816 the bank had a capital of $300,000. At one point a guard slept over the trap door which led to a barrel in the basement where the money was stored. In 1838 the board of directors refused a $5,000 loan to Chicago saying that it was too far from Shawneetown to ever amount to anything. Visit the museum to see a copy of legal $3.00 and $7.00 bills issued by the bank and the vault later used by the bank. The reconstructed bank is open Sundays 1-4pm from Mother’s Day to the end of October.
Gallatin County started off with salt processing at the Saline Spring and Half Moon Lick. The salt industry became a primary industry of the county and the state. When Illinois entered the Union in 1818 it was to enter the Union as a free state as established by the Northwest Ordinance. An exception to the exclusion of slavery was made in the Illinois Constitution for the area known as the Gallatin Salines. The growing new state needed the revenue from the salt wells.

By 1812 the federal government had created the Shawneetown Land Office. Gallatin County was officially organized that year. It was the second county in the state after St. Clair county. Out of the county grew the present day counties of Saline, White, Franklin, Hamilton, Hardin, and parts of Pope and Williamson.

After the 1937 flood of the Ohio River, Shawneetown was moved to a new location. Property there was recorded by Johnathan Boone, a brother of Daniel Boone. By the time Illinois became a state in 1818 the county was booming, it was the point of entry into the new land. The Ohio river provided easy access to this “Wild West.”

Morel mushrooms

The Hunt and Harvest in Shawnee Forest Country

Have you ever wondered where Morel mushrooms grow? There are some fantastic hunting spots right here in Southernmost Illinois. They can be found around dead Elms, Poplar trees, Old Ash and Apple trees, and various other places. They love rain and cool nights followed by warmer temperatures, which makes April a great month to find them.

Morels in the gourmet world are considered a delicacy. The Morel mushroom comes in several different varieties. The most common, seems to be the yellow Morel followed by the gray Morel. These mushrooms can appear as early as March and have been spotted through the month of May, but April is generally the best month. They can appear to grow overnight, so a good site can produce Morels over and over again during a season.

Giant City Visitor Center offers books for sale about mushroom hunting, and has programs in April that focus on Mushroom hunting. Call 618-457-4836.

Private guided mushroom hunts with a certified mycologist are offered at the Garden of the Gods Outpost and thru Timber Ridge Outpost and Cabins. Call 815-693-1422.

Morels should never be eaten raw because of a natural toxin they produce. They have evil cousins called false Morels, which can be toxic and poisonous. On your first hunt, make sure to go with an experienced Morel hunter and carry a good Morel identification book. If you are uncertain whether it is a Morel or not, leave it be.

Internationally known Chef Lasse Sorensen, owner of Tom’s Place Fine Dining will be serving up some of these delicacies in April at his restaurant in De Soto, IL. If you’ve never had a chance to try these delicious mushrooms, make a reservation for the Morel dinner at Tom’s Place.

Explore the Illinois Ozarks in Scenic HARDIN COUNTY

Drawn by the mighty Ohio River and the lush green forests along her shore, early Europeans settled in these Illinois Ozarks during the late 1700s. Today the quiet hills and river towns beckon visitors for a different kind of vacation. Little changed from the early years, this corner of southeastern Illinois offers a pleasant diversion for travelers seeking the road less traveled. She may truly represent one of Illinois’ most amazing areas.

Tired of driving? Hike our many trails, go for a swim in the ‘ol swimming hole, ride horseback, fish for the one that didn’t get away, picnic in one of our many parks, explore treasures in antique shops, enjoy the breathtaking vistas of nature, bike ride, or watch a river barge work its way against current. You can also ride the only remaining Illinois Ferry operating the Ohio River.

Do you enjoy history? Retrace the steps of Davy Crockett. Learn of pirates and counterfeiters ... and murder. See an old Illinois Iron Furnace from the 1800s. Collect a bit of fluorspar, the Illinois state mineral. From historic caves to stately mansions, the historic river towns are full of surprises.

Here the hills and hollows are reminders of earlier days ... where families span generations, the neighborhoods make you feel welcome, and the pace can be your own.

Our 225 foot bluff above the Ohio River offers incredible bird’s eye views of the Ohio River.

Located in Southern Illinois just 15 minutes from "Garden of the Gods."
San Damiano is the perfect place to stay that is not too far away!

Best wedding venue in Southern Illinois!

200 Acres of scenic and spiritual trails!
Where could you find waterfalls, canyons, spectacular forests, creeks, lakes, a mighty river, vineyards, amazing starscapes and wildlife? Such wonders abound in Africa, Australia, Brazil or Hawaii, but could you imagine all this can be found in Pope County, Illinois?

In the Spring, pursue waterfalls at Jackson Falls and Burden Falls. Descend a stone staircase into Bellsmith Springs’ canyon or cross a natural stone bridge, where everywhere there is the music of water. The best rock-climbing in the state is just 1.6 miles out of Ozark.

Campgrounds, rustic cabins, stables, and horse trails await in Eddyville, Illinois’ trail-riding capital and host of the 9-day encampment. Lusk Creek Canyon features a 100-foot gorge and is rated by American Whitewater Rafting as a class 1-III section. In Glendale visit Pope County’s first vineyard on the Southern Illinois Wine Trail and experience nature and water sports at Lake Glendale.

Dixon Springs State Park’s 801 acres feature a modern swimming pool, bathhouse, and water slides. Taste mouth-watering chocolates on route 146, which marks the Cherokee’s Trail of Tears. Native Americans here still celebrate their rich culture in programs and festivals to which the public is invited. Hunters and fisherman find plentiful game and catch throughout Pope County.

Fresh-water shrimp and white-tail deer harvests are marked by festivals in Golconda. Golconda Marina is gateway to the Smithland Pool area of the Ohio River with 206 slips. The ease of eloping here makes Pope County a preferred wedding destination. Couples get marriage licenses at the historic courthouse one day and marry the next on waterways on horseback, under waterfalls, or in other imaginative venues. On down the Ohio River National Scenic Byway, Bay City is a sportsman’s paradise that was once a movie location.

Being a sparsely populated county with vast forested areas and little artificial light, the stars feel closer here. Constellations are easily identifiable, and some feel the Earth move when viewing our night skies. Visit Pope County and see for yourself. You will not believe you are in Illinois, but seeing is believing!
Garden of the Gods
One of the most photographed locations in the Midwest, featuring magnificent rock formations overlooking hills and valleys in the Garden of the Gods Wilderness area. Accessible by a paved observation trail. The iconic Camel Rock is featured on the Illinois Quarter of the America the Beautiful quarter series.

Old Stone Face
Saline County’s own iconic “old man on the mountain.” Located on a scenic bluff overlooking the Saline River Valley. Accessible by foot trail from parking area.

Sahara Woods State Fish & Wildlife Area
A hunting and fishing gem located on 4,100 acres of woods with numerous lakes and ponds located north of Carrier Mills. A sportsman’s paradise.

Saline Creek Pioneer Village and Museum
A pioneer village with authentic log cabins moved from their original locations, a log thrashing barn, one room school house, church and other building, including a re-created pioneer block house. It is also the site of the Saline County Historical Society’s museum housed in the former “County Pauper House.” The building is on the Nation Register of Historic Places.

Glen O. Jones Lake
Located in the Saline County State Fish & Wildlife Area. 105 acre lake with fishing, hunting, boating, tent and trailer camping, hiking and other outdoor activities. A life size bronze statue of the Shawnee Chief Tecumseh is also located at the lake.

City of Harrisburg
County seat and a regional shopping center with stores, restaurants and lodging to meet the needs of any tourist. Home of Shawnee National Forest Headquarters, Saline Creek Pioneer Village and Museum, and Saline County Genealogy Society Library. Harrisburg is the northern trail head of the Tunnel Hill State Bicycle Trail stretching 45 miles from Harrisburg to Karnak.
Welcome to Saline County and Southeastern Illinois, Garden of the Gods Country. This area is rich in recreation, scenic attractions, and pioneer history. While here, visit Garden of the Gods, Saline Creek Pioneer Village and Museum (circa 1840), the only Bronze Statue of Tecumseh at Glen O. Jones Lake, the Stone Face, and fascinating woodland hideaways in the Shawnee Forest. Every highway in this area is a scenic drive in itself. There are true stories, hard to imagine around every curve, and plenty of natural beauty. Visit one of the best kept secrets in the Midwest...or even the United States. www.visitsalinecounty.com

Sahara Woods State Fish & Wildlife Area

Sahara Woods, a portion of the Saline County Fish and Wildlife Area, is a hunting and fishing gem nestled in the woods just north of Carrier Mills. The 4,001-acre property was donated to Illinois Department of Natural Resources by Sahara Coal Company in 1998 and after an extensive reclamation program was opened to the public on July 7, 2011. The site has numerous lakes and ponds; Sahara offers a little of something to appeal to any angler.

The two largest lakes, Sahara and Final Cut comprise 100 and 20 acres respectively, but with over 275 acres of total waters there are many small but productive ponds accessible only by foot.

Sahara and Final Cut lakes are both equipped with boat launches, piers and bathroom facilities. Swimming is not allowed in any lake or pond on the site. All the lakes and ponds are open to boats, canoes, kayaks, and angling tubes meeting state regulations with the stipulation that vehicles are not used to back up to the edges of lakes and ponds to launch watercraft.

Catfish, crappie, bass, bluegill and red-ear can be found in the waters of Sahara Woods with catfish restocked regularly. A very good way to get an overview of the locations of lakes and ponds is to use a satellite or aerial imaging application which provides aerial photos of Sahara Woods.

Sahara Woods is open for archery deer hunting, firearm doe hunting, upland game hunting, turkey and fur bearer hunting in season. In November, half the park briefly closes and is reserved for a special deer hunt for terminally-ill youth.

Sahara Woods boasts a plentiful deer and turkey population, as well as numerous flocks of Quail.

Mushroom picking, hiking, and picnicking are allowed, though as yet there are no picnic facilities available. Sahara Woods is well worth a visit and whether visitors are fishing, hunting or just observing wildlife they will experience a very nice taste of rural Southern Illinois.
**ROCK CLIMBING, BOULDERING & REPPELLING**

With the beautiful backdrop of the Shawnee National Forest, all seasons lure outdoor enthusiasts to Southern Illinois for fishing, hiking, backpacking, mountain biking and more extreme sports such as zip lining and rock climbing.

Located in the Shawnee National Forest, Jackson Falls offers arguably the best rock climbing in southern Illinois. There are roughly 60 climbing areas along the sandstone bluffs and freestanding boulders, each with multiple named routes on them. There are over 500 named routes in all. Most of the routes are 50-60 feet in height. The whole area sits in a very scenic glen. There are also many excellent bouldering opportunities here.

Guided climbs are available with Vertical Heartland as well as a guidebook called Vertical Heartland that provides detailed descriptions of all the routes at Jackson Falls. [http://www.verticalheartland.com/](http://www.verticalheartland.com/)

Southernmost Illinois is a natural draw because it has the highest density of quality stone, making it the climbing capital of the state.

Giant City State Park is home to a beautiful assortment of cliffs for beginners and pros alike. At Shelter 1, a short hike gains you access to the historic bluff line with dozens of climbs. The Devils Standtable provides yet another series of vertical challenges for visitors. Many established paths up the cliff face or “routes” are studded with subtle steel bolts, installed by the Illinois Climbers Association, offering safe anchors for the ascent. Many come for the physical and mental challenge, others to experience the wonder of nature. As climbing continues to grow, more people will come to know Giant City as not just an outdoor playground, but a place where their passion finds a home.

Touch of Nature Environmental Center near Makanda, IL has opportunities for all ability levels. “We’ve had folks from 8 to 80 years old come out to rock climb with us,” Touch of Nature Program Director Erik Oberg said. “Most people we provide programs for are new to climbing, so we provide a fun, safe introduction to this high adventure activity.”

Climbing at Jackson Falls

Because the staff at Touch of Nature works year-round, they have experienced climbs through the region’s various seasons. To learn more about outdoor adventure programs, visit [https://ton.siu.edu/](https://ton.siu.edu/).
